Career Roadmap Generator

Get a personalized step-by-step learning roadmap to achieve your career goals

🔍 Search for your dream career...

🔗 Software Development

Frontend Developer

Build user interfaces and web applications

DevOps Engineer

Automate deployment and infrastructure

📊 Data & Analytics

Data Scientist

Analyze data and build ML models

🎨 Design

UX Designer

Design user experiences and interfaces

Healthcare

Registered Nurse

Provide patient care and medical support

Medical Doctor

Diagnose and treat patient illnesses

Physical Therapist

Help patients recover mobility and manage pain

Clinical Psychologist

Provide mental health assessment and therapy

Agriculture

Agricultural Scientist

Research and develop farming methods

Farm Manager

Oversee agricultural operations and production

Agricultural Engineer

Design farming equipment and systems

Soil Scientist

Study soil composition and management

Social Services

Social Worker

Support individuals and families in need

Counselor

Provide guidance and mental health support

NGO Program Manager

Lead nonprofit programs and initiatives

Community Health Worker

Promote health in underserved communities

Data Scientist Roadmap

Analyze complex data and build predictive models using machine learning

Total Duration
8-12 months

Learning Phases
4 Phases

Success Rate
High

Your Progress

0 of 4 phases completed

0%

Your Learning Journey

Follow these structured phases to master the skills and achieve your career goal

1

Foundation

⌚ 8-10 weeks

Math & Programming Basics

🎯 Skills to Learn

Python Statistics Linear Algebra Probability SQL

🔧 Tools & Technologies

Python Jupyter Notebook NumPy Pandas MySQL

✅ Action Steps

- Learn Python programming
- Study statistics fundamentals

- Learn Python programming
- Study statistics fundamentals
- Master SQL queries
- Complete math refresher
- Setup data science environment

Recommended Resources

[Khan Academy Statistics](#), [Python for Data Science](#), [SQLZoo](#), [Coursera Math courses](#)

Your Progress

0 of 4 phases completed

0%

2

Data Analysis

 6-8 weeks

Data Wrangling & Visualization

Skills to Learn

[Data Cleaning](#) [EDA](#) [Data Visualization](#) [Feature Engineering](#)

Tools & Technologies

[Pandas](#) [Matplotlib](#) [Seaborn](#) [Plotly](#) [Tableau](#)

Action Steps

- Clean and process datasets
- Perform exploratory data analysis
- Create meaningful visualizations
- Work on Kaggle datasets
- Build data analysis portfolio

Recommended Resources

[Kaggle Learn](#), [Pandas Documentation](#), [Tableau Public](#), [DataCamp](#)

3

Machine Learning

🕒 10-12 weeks

ML Algorithms & Models

🎯 Skills to Learn

Supervised Learning

Unsupervised Learning

Model Evaluation

Deep Learning Basics

🔧 Tools & Technologies

Scikit-learn

TensorFlow

Keras

XGBoost

MLflow

✅ Action Steps

- Learn ML algorithms
- Build classification models
- Create regression models
- Participate in Kaggle competitions
- Deploy a simple ML model

📖 Recommended Resources

[Coursera ML Course](#), [Scikit-learn Docs](#), [Fast.ai](#), [Kaggle Competitions](#)

4

Job Ready

🕒 6-8 weeks

Portfolio & Specialization

🎯 Skills to Learn

Model Deployment

Cloud Services

Communication

Domain Knowledge

🔧 Tools & Technologies

Docker

AWS/GCP

Flask/FastAPI

Git

Streamlit

Model Deployment

Cloud Services

Communication

Domain Knowledge

Tools & Technologies

Docker

AWS/GCP

Flask/FastAPI

Git

Streamlit

Action Steps

- Deploy 3 end-to-end projects
- Learn cloud basics (AWS/GCP)
- Create professional portfolio
- Practice case interviews
- Network in data science community

Recommended Resources

[Towards Data Science](#), [AWS Free Tier](#), [Medium Articles](#), [Data Science Interviews](#)

Ready to Start Your Journey?

This roadmap is your guide to success. Stay consistent, practice regularly, and don't hesitate to seek help from communities and mentors along the way.

 Future Update: AI-powered personalized guidance coming soon!

Job Opportunities

Data Scientist Positions

All Types

Junior Data Scientist

Full-time

DataTech Solutions

📍 Remote 💰 \$75k - \$95k ⭐ 0-2 years ⌚ 2 days ago

Analyze data and build ML models. Work with cutting-edge tech stack.

Python SQL Statistics Machine Learning

Apply Now

Data Analyst

Full-time

FinTech Innovations

📍 Austin, TX 💰 \$65k - \$85k ⭐ 1-3 years ⌚ 5 days ago

Transform data into actionable insights. Great benefits and growth opportunity.

SQL Python/R Tableau Statistics

Apply Now
